The Solea® All-Tissue Laser is a comprehensive dental practice solution unlike any other. This 9.3-micron CO₂ laser allows for anesthesia-free, blood-free, and pain-free procedures in hard and soft tissue.¹ Convergent Dental unites this novel technology with our unique success support community, enabling dentists to elevate and grow their practices through improved efficiency, patient experience, clinical effectiveness, and procedural expansion.²

Watch Solea in action!

*Fee information from the American Dental Association "Survey of Dental Fees" and other publicly available sources. Non-reimbursable procedure fees are estimates. Fee information provided at the 75th percentile.

SOLEA® ELEVATES PRACTICE POSSIBILITIES

What if you could eliminate dental anxiety for many of your patients? And what if you could perform more same-day, multi-quadrant dentistry? That is what anesthesia-free, blood-free, and pain-free procedures can do. Less blood, sweat and tears - more smiles, efficiency, and revenue for your practice.

And what if you could perform procedures that you previously ignored or referred out? Solea dentists perform new soft tissue procedures because they are simple, fast, and minimally invasive.² When you can greatly reduce or eliminate bleeding, sutures, and post-operative pain, you can add higher revenue procedures such as gingivectomies, frenectomies, and flapless crown lengthening.

Your patients will love receiving treatment from a dentist they know and trust.¹

MULTIPLE DRIVERS OF PRACTICE GROWTH

PRODUCTION GROWTH ILLUSTRATION

2 add'l cavities/day	2 procedures/week	1 procedure/week	1 procedure/week	
x 16 days/month	x 4 weeks/month	x 4 weeks/month	x 4 weeks/month	12 months/year
x \$175/cavity	x \$400/procedure	x \$600/procedure	x \$750/procedure	x \$14,200/month
= \$5,600/month	= \$3,200/month	= \$2,400/month	= \$3,000/month	= \$170,400/year
